

Electric Lifting Table

Electric Lifting Table is a multifunctional lifting and handling mechanical equipment and an electric lifting platform lifting system, which is driven by hydraulic pressure. Electric Lifting Table has mechanical structure of scissors. The mechanical structure of scissors makes the lifting platform have high stability, wide working platform and high bearing capacity, which makes the aerial work range wider and suitable for multiple people to work at the same time. The Electric Lifting Table makes aerial work more efficient and safer.

1. Product introduction:

Electric Lifting Table is a multifunctional lifting and handling mechanical equipment and an electric lifting platform lifting system, which is driven by hydraulic pressure. Electric Lifting Table has mechanical structure of scissors. The mechanical structure of scissors makes the lifting platform have high stability, wide working platform and high bearing capacity, which makes the aerial work range wider and suitable for multiple people to work at the same time. The Electric Lifting Table makes aerial work more efficient and safer.

Electric Lifting Table are used by all types of manufacturing and warehouse facilities. Safety features include: electric toe guard to protect pinch points during lowering of the table, internal safety velocity fuse to maintain platform height in event of hose or fitting failure, 24V AC push button hand control, maintenance prop, and upper travel limit switch to stop table at maximum height. 2HP, 460V, 3 phase, 60 Hz totally enclosed motor standard, other voltages available. 3000 psi hydraulic component rating. The classification of electric lifting table: standard type electric lifting table, double shear type electric lifting table, ultra-low type electric lifting table, large mesa type electric lifting table, small mesa type electric lifting table and U type electric lifting table.

2. Product Specification

capacity	lifting height	scissor quantity	wheel	table size
150kg	0.72	1	nylon wheel	450*700
150kg	1.22	2	nylon wheel	450*700
300kg	0.9	1	nylon wheel	500*815

300kg	1.3	2	nylon wheel 500*815
350kg	1.3	2	nylon wheel 500*815
350kg	1.5	2	nylon wheel 500*815

3. Feature And Application

This Electric Lifting Table has integral oil cylinder, which has strong bearing capacity, stable performance and no oil leakage. The robot mesa is welded, which is more load-bearing and more efficient. Upgraded and thickened paint countertops are durable, beautiful and rust-proof. The Electric Lifting Table adopts thickened and stable scissors, which has a larger lifting capacity. Multifunctional operation platform makes Electric Lifting Table' operation more safer and convenient for daily use, simpler and easier to use.

4. Product Details

Electric Lifting Table has a seamless welded chassis, which largely guarantees the stability and safety of the vehicle.

Electric Lifting Table is made of high-power oil pump, with strong power and strong bearing capacity.

The battery life of Electric Lifting Table is strong and can last for a long time, and the rear charger socket is fixed to facilitate timely charging.

Upgrade the Electric Lifting Table's brake device to control the vehicle speed during use.

Electric Lifting Table has hydraulic pump. Durable hydraulic pump ensures a long service life. With over load by pass valve to protect operator and pump.

5. Product Qualification

Shanghai Yiyong Crane Machinery Company is the lifting table manufacturer Institute certified. Our products' quality is guaranteed. We are top 5 lifting equipment supplier in China. Our company focuses on the protection of lifting equipment for about thirty years. Company was honoured by the government as a high tech enterprise in 2010. Our products have CE, SGSISO:9001, BV certificates. The third-party inspection for quality testing is accepted; Product qualification rate more than 98%; In accordance with the requirements of Environmental Protection Administration, the quality and delivery can be guaranteed.

6. Deliver, Shipping And Serving

Packaging & Delivery

Packaging Details

package of lift table :6 pieces one pallet

Port

shanghai/tianjin/qingdao port

Lead Time:

Quantity(Sets) 1 - 20 >20

Est. Time(days) 20 To be negotiated

Service:

Perfect maintenance service and maintenance consultation system to provide high quality is experiences for customers at home and abroad. More than one hundred professional services staff.

7. FAQ

What's the delivery time?

Usually, we ship the goods within 10-20 days. If you need big quantity, we will try to finish in shortest time for you.

Are we a manufacturer&factory or trading Company?

We are absolute manufacturer in Hebei province, China, we have specialized in crane&hoist over 20 years. our high quality products are being sold more than 60 countries.

Can I visit your factory?

We welcome customer you come to visit us, if you have visiting plan, please tell us, we will provide very happy accomodation.

Which city are you locating?

www.hugoforklift.com

Our factory locates Baoding City, Hebei Province where close to Beijing capital.
